ompany profile

Nutrition and animal care by MT Nutri

Since 2022, MT Nutri company is the exclusive exporter for Iraq and the middle East of product intended for nutrition and animal care.

For MT Nutri, every day dedicated to advancing how we deliver nutrition across all major species.

From ingredient evaluation all the way through feed formulations, we can help you differentiate your business and improve profitability.

We strive to be the best choice in nutritional solutions, adopting a preventive approach to the main problems encountered in breeding.

Our Offer :

- A broad portfolio of high quality and cost effective feed products
- Best in class feed additives to support animal health and performances
- Customized solutions
- A commitment to your success

Seven reasons to choose MT Nutri to ensure the control of your project :

1- Franco-kurdish company established in Kurdistan since 2022,

2- A team with double culture (french & kurdish) :

* A franco-kurdish CEO – Zoubeyr MAHY

* A Technical Manager (for poultry) and Head of planning section, Directorate of Veterinary Duhok Governorate – Dr Mohammed Hassan Abdullah

* An Administrative and accounting Manager – Séverine CRUSEL

3- A know-how and a notoriety recognized by its customers & its suppliers

4- A sound and independant financial position

5- Major professional partnerships in France and Kurdistan

6- On-site technical follow-up

7- An open door to products and know-how Made in France

Poultry

Liquid nutritional product

ACTIV' ANTI VIRUS

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' ANTI VIRUS is composed of aromatic substances for digestive purposes.

Particularly suitable for vaccination supervision (2 days before and 2 days later).

Also recommended in situations of infectious stress, heat stress, periods of convalescence, or immune strengthening.

Benefits:

- Modulation of the immune response (anti-inflammatory) ;
- Reduction of oxidative stress ;
- Improved detoxifying function (liver health) ;
- Improved feed conversion through improved integrity of the intestinal mucosa ;
- Prevention of enteritis linked to viral passage (Gumboro) or bacterial pressure or coccidiosis ;
- Support peak egg production.

Specifications per liter

Trace elements

Selenium (3b801 - Sodium selenite)

250 mg

Aromatic substances

Mixture of aromatic substances

Other ingredients

Propylene glycol, sugar cane molasses.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Direction for use

Dilute 1 liter per 2 000 liters of drinking water. In case of major problems, double doses (1 liter to 1000 liters of drinking water).

Poultry:

- For vaccination supervision (2 days before vaccination and 2 days after vaccination) ;
- During 3 to 7 days, mainly between Day 6 to Day 10 and Day 15 to Day 21, in digestive problem prevention:

- prevent viral enteritis,
- decrease bacterial pressure and coccidiosis.
- As soon as the litter tends to degrade, for 2 to 5 days ;
- At Day 21, if gumboro problem.

Laying hens:

- On young laying hens, in vaccination framework (2 days before vaccination and 2 days after vaccination) ;
- In addition to protective hepato supplementation (every 6 weeks for 1 to 2 days) ;
- In case of viral passage, in order to speed up the recovery of food ;
- In case of problems related to gumboro (infectious bursitis).

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

7 allée du camping - 81000 ALBI (France)

Port : +33 6 68 28 56 58

MADE IN FRANCE

ACTIV' GARLIUM IMMUNITY

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' GARLIUM IMMUNITY provides essential oils to improve immunity.

Benefits :

- Powerful stimulant of immune system and powerful antioxidant ;
- Antibacterial and antiviral ;
- Improves feed conversion and appetite ;
- Improves bile secretion and digestive enzymes ;
- Expectorant and anti-inflammatory ;
- Achieves better absorption of feed.

Direction for use

For vaccination supervision (2 days before vaccination and 2 days after vaccination).

Dilute 0,5 to 1 liter per 1000 liters of drinking water over periods of 3 to 5 consecutive days.

Repeat as needed.

Specifications per liter

Aromatic substances

Garlic essence (<i>Allium sativum</i>)	9 900 mg
Garlic fluid extract (<i>Allium sativum</i>)	25 000 mg
Thymol	54 751 mg
Cinnamomum essential oil (<i>Cinnamomum cassia</i>)	17 500 mg

Other ingredients

Propylene glycol, glycerine.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

7 allée du camping - 81000 ALBI (France)

Port : +33 6 68 28 56 58

MADE IN FRANCE

ACTIV' KIDNEY

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' KIDNEY is a regulator of renal functions and is indicated for its diuretic effects in case of renal insufficiencies.

ACTIV' KIDNEY contains ammonium chloride as a urinary acidifying agent, methionine, an essential amino acid and also urine acidifier, and sorbitol as osmotic diuretic.

Benefits :

- Prevents and dissolves certain type of uroliths ;
- Enhances renal excretion of some toxins ;
- Effective in case of hydronephrosis and nephritis ;
- Also effective in case of infectious bursal disease ;
- Also used in case of drug poisoning and as a complement to antibiotic treatment.

Direction for use

Dilute 1 to 2 liters per 1000 liters of drinking water over periods of 3 to 5 consecutive days.
Repeat as needed.

Specifications per liter

Amno acids

Methionine

(3c301 - DL- methionine, technically pure)

10 000 mg

Zootechnical additives

Ammonium chloride (4d7)

223 425 mg

Other ingredients

Propylene glycol, sodium chloride.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

MADE IN FRANCE

ACTIV' IMMUN

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' IMMUN provides antioxidant and antibacterial source to improve immunity.

Benefits :

- Stimulates immune system ;
- Increases the grow-weight in broilers ;
- Increases the egg production ;
- Increases the appetite and feed intake ;
- Improves the endogenous digestive enzyme secretion.

Direction for use

Dilute 0,25 to 1 liter per 1000 liters of drinking water.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per liter

Vitamins

Betaine (3a920 - Betaine anhydrous) 30 000 mg

Vitamin B12 (3a835 - Cyanocobalamin) 1 000 mcg

Vitamin E (3a700 - All-rac-alpha-tocopheryl acetate) 5 000 UI

Amino acids

Methionine 30 000 mg

(3c307 - Hydroxy analogue of methionine)

Aromatic substances

Mixture of aromatic substances 45 000 mg

(Oregano, Garlic)

Other ingredients

Propylene glycol, magnesium sulphate anhydrous.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

7 allée du camping - 81000 ALBI (France)

Port : +33 6 68 28 56 58

MADE IN FRANCE

ACTIV' PULMO

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' PULMO provides aromatic substances for respiratory and pulmonary purposes (essential oil of eucalyptus and peppermint).

ACTIV' PULMO provides also thyme and oregano essential oils for their action anti infectious and immune stimulant.

Benefits :

- Improves function of respiratory tract ;
- Fast relief from respiratory symptoms in poultry ;
- Promotes expectoration of sputum ;
- Facilitates breathing ;
- Protection against bacterial and viral infections (bronchitis, influenza) ;
- Recommended in H9 and IB in case of sneezing and choking for all respiratory problems.

Direction for use

Oral: 250 ml to 1 liter per 1000 liters of drinking water in poultry during 5 to 10 days.

Ability to use in nebulisation:

- Dilute 100 ml / L (1 L = 100 m³).
- Nebulize twice a day the first week then twice a week the following week, to reduce pathogenic pressure in buildings.

Specifications per liter

Aromatic substances

Mixture of aromatic substances 72 000 mg

Essential oil (eucalyptus, peppermint, thyme, oregano)

Other ingredient

Propylene glycol.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

MADE IN FRANCE

ACTIV' DIGEST ACID

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' DIGEST ACID is a mixture of organic acids with high acidifying power to promote intestinal hygiene and optimize the digestive process.

Benefits :

- Improves intestinal hygiene during critical growth phases, such as chick initiation ;
- Stimulates enzymatic activity ;
- Improves protein digestion of the feed and maintain the balance of the intestinal flora ;
- Acidification of drinking water ;
- Prevents water contamination ;
- Prevents the growth of salmonella and other pathogenic bacteria in drinking water.

Direction for use

Distribute 300 to 500 ml per 1000 liters of water at least 3 days per week or continuously in difficult conditions.

Do not distribute during vaccinations and antibiotic treatments.

Beware : Acidic product, never handle pure.

This product is a nutritional product, which is not intended for pipe cleaning. It can take off an existing biofilm and clog the nozzles.

A complete cleaning is recommended before period of use.

Specifications per liter

Organic acids

Formic acid (1k236)	586 666 mg
Lactic acid (1a270)	90 000 mg
Propionic acid (1k280)	150 000 mg
Sorbic acid (1a200)	1 000 mg

Other ingredients

Sodium chloride, potassium chloride.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

7 allée du camping - 81000 ALBI (France)

Port : +33 6 68 28 56 58

MADE IN FRANCE

ACTIV' E + SELENIUM

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' E + SELENIUM, through its antioxidant action, is recommended during demanding periods such as rapid growth, reproduction periods, stressful situations (infectious, thermal, animal breeding), or immune strengthening.

Benefits :

- Improves immunity and development of the liver ;
- Improves performance and production ;
- Improves laying in layers and breeder hens ;
- Prevents encephalomalacia in broiler chickens ;
- Prevents the formation of free radicals and of peroxides which are the cause of cell degeneration and destruction.

Direction for use

For young animals (start-up, growth, weaning ...) ;

For adult animals (reproduction periods, food transitions ...) ;

Regularly, in case of particular risks.

- Poultry: Dilute 0.5 to 1 liter per 1000 liters of drinking water ;

- Dairy cows: 40 mL per day and per animal ;

- Calves: 3 to 10 mL per day and per animal ;

- Ewes - Goats: 5 mL per day and per animal ;

- Lambs – Young Goats: 1 to 2 mL per day and per animal.

Over periods of 5 to 10 consecutive days.

Repeat as needed.

Specifications per liter

Vitamins

Vitamin E

100 000 UI

(3a700 - All-rac-alpha-tocopheryl acetate)

Trace elements

Selenium (3b801 - Sodium selenite)

225 mg

Other ingredients

Propylene glycol, glycerine.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

MADE IN FRANCE

ACTIV' B COMPLEX

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' B COMPLEX is a supplement in soluble group B vitamins, which are essential for the good health of the animal as catalysts of a large number of cell metabolism reactions. Often difficult to detect, their lack can result in a decrease in performance (growth, ...).

Benefits :

- Improves skin protection, quality appendages and plumage ;
- Supports peak egg production ;
- Fulfill body requirement for essential vitamins ;
- Prevention and treatment of nervous disorders ;
- Improves productivity index in critical periods ;
- Helps in retarded growth during antibiotic treatment.

Direction for use

- For young animals (start-up, growth, weaning ...) ;
- For adult animals (food transitions ...) ;
- Regularly, in case of particular risks.

Dilute 0,5 to 1 liter per 1000 liters of drinking water. Over periods of 3 to 5 consecutive days. Repeat as needed.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per liter

Vitamins

Vitamin B1 (3a821 - Thiamine mononitrate)	3 500 mg
Vitamin B2 (3a825ii - Riboflavin)	4 000 mg
Vitamin B5 (3a842 - D-panthenol)	4 500 mg
Vitamin B6 (3a831 - Pyridoxine hydrochloride)	5 000 mg
Vitamin B12 (3a835 - Cyanocobalamin)	18 mg
Vitamin K3 (3a710 - Menadione sodium bisulphite)	3 000 mg
Biotin (3a880)	10 mg
Vitamin PP (3a315 - Niacinamide)	25 000 mg
Folic Acid (3a316)	600 mg

Sorbitol	5 000 mg
MPG	50 000 mg

Other ingredients

Propylene glycol, sodium bicarbonate.

Packaging

MADE IN FRANCE

ACTIV' K3 LIQUID

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' K3 is composed of vitamin K3, particularly suitable for prevention of hemorrhagic problems (bluntings, pecking ...). It plays an important role in clotting mechanism.

Benefits :

- Recommends for adjunctive therapy in gumboro disease and coccidiosis ;
- Allows a strengthening of the quality of eggs and shell.

Direction for use

Poultry: Dilute 1 liter per 2 000 to 4 000 liters of drinking water.

Laying and breeding hens: Dilute 1 liter per 2 000 liters of drinking water.

Specifications per liter

Vitamin

Vitamin K3

(3a710 - Menadione sodium bisulphite)

150 000 mg

Other ingredients

Propylene glycol, glycerine.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

MADE IN FRANCE

ACTIV' METHIO

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' METHIO provides methionine source for prevention of methionine deficiency, support growth and eggshell production.

Methionine is an amino acid essential for protein synthesis.

Benefits :

- Improves egg production ;
- Supports egg quality ;
- Ensures optimal performance of broiler ;
- For deficiency states in chickens and laying hens.

Direction for use

Dilute 0.5 to 1 liter per 1000 liters of drinking water.

Specifications per liter

Amno acids

Methionine
(3c307- Hydroxy analogue of methionine)

700 000 mg

Other ingredients

ACTIV' NEW HEPATO

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' NEW HEPATO is an hepatic supplement that helps liver metabolism (contributes to destocking fats in liver) and provides easily metabolizable energy.

Benefits :

- Improves digestion and metabolism of the main feed ingredients, especially fats ;
- Detoxifies and protects hepatic function ;
- Protects liver in anticoccidial, antibiotic and anti-parasitic treatments.

Direction for use

Dilute 1 liter per 2000 liters of drinking water over periods of 3 to 5 consecutive days.

Packaging Repeat as needed.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per liter

Vitamins

Betaine (3a920 - Betaine anhydrous)	40 000 mg
Choline chloride (3a890)	80 000 mg
Carnitine (3a910 - L-carnitine)	20 000 mg
Vitamin B12 (3a835 - Cyanocobalamin)	15 mg

Aromatic substances

Artichoke fluid extract (Cynara cardunculus var. scolymus)	8 000 mg
Thistle tincture (Silybum marianum)	32 000 mg
Emulsifiers and stabilizing agents	
Sorbitol (E 420)	200 000 mg

Other ingredients

Propylene glycol, magnesium sulphate anhydrous.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

MADE IN FRANCE

ACTIV' CALCIUM

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' CALCIUM provides highly assimilable calcium and vitamin D3. Vitamin D3 is essential in the regulation of the metabolism of calcium, increasing intestinal and tubular absorption of calcium.

Benefits :

- Maintains good shell quality and strong bones development ;
- Prevents calcium deficiency in laying hens leading to a reduction in the quality of the shell and subsequently, osteoporosis ;
- Positive effect on eggshell quality, skeleton and thus performance ;
- Increases faster growth.

Specifications per liter

Minerals

Calcium (as calcium chloride) 9 %

Sodium (as sodium chloride) 0,2 %

Vitamins

Vitamin D3 (3a671 - Cholecalciferol) 375 000 UI

Trace elements

Zinc (3b601 - Zinc acetate, dihydrate) 2 500 mg

Other ingredients

Calcium chloride, propylene glycol, sodium chloride.

Direction for use

Dilute 1 liter per 1000 liters of drinking water, during 3 to 4 consecutive days.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

ACTIV' VITAMIN

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' VITAMIN provides vitamins and free amino acids to cover the needs of animals. The contribution of essential and non-essential amino acids aids in balancing the diet.

Benefits :

- Indicated in periods of maximum production ;
- Protective effect on cells ;
- Stimulates cell replication ;
- Prevention or treatment of vitamin deficiencies in farm animals ;
- Prevention or treatment of stress ;
- Improvement of feed conversion.

Direction for use

1 liter per 2000 liters of drinking water.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

7 allée du camping - 81000 ALBI (France)

MADE IN FRANCE

ACTIV' NEW HYDRA

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' NEW HYDRA contributes to improving the hydration of poultry, particularly when starting batches (transport, handling, stress, etc.), and during periods of high heat.

This product contains a high concentration of electrolytes, to stabilize the electrolyte balance, glycine which allows better absorption of electrolytes, betaine to regulate osmotic pressure, dextrose for a rapidly assimilable energy supply and vitamin C to increase immunity.

Benefits :

- Promotes water consumption;
- Strengthens resistance capacities in the event of thermal stress;
- Promotes water recovery after antibiotic treatment or vaccination.

Direction for use

Dilute 1 liter per 1000 liters of drinking water for 3 to 5 consecutive days:

- When starting a batch.
- During the adaptation phase and heat stress
- After treatment

During the chick starting phase and when temperatures are very high, it is recommended to dilute 2 liters per 1000 liters of drinking water.

Specifications per liter

Minerals

Chlorides	63 261 mg
Sodium	41 205 mg
Potassium	15 000 mg
Phosphorus	11 952 mg

Vitamins

Betaine (3a920 - Betaine anhydrous)	30 000 mg
Vitamin C (3a300 - Ascorbic acid)	10 000 mg

Aromatic substances

Glycine (2b17034)	1 000 mg
-------------------	----------

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

ACTIV' MIN +

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' MIN + provides minerals, trace elements and amino acid, to cover the needs of poultry and to prevent or treat mineral deficiencies.

Minerals are important for the formation of egg shell quality.

Benefits :

- Optimal mineralisation of the skeleton and egg-shell ;
- Improves water hygiene due to a reduced pH value;
- Ensures optimal performance of broiler.

Direction for use

Distribute 1 liter per 1000 liters of drinking water during 3 to 5 days.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per liter

Minerals

Calcium (as calcium chloride)	40 000 mg
Magnesium (as magnesium chloride)	5 000 mg
Phosphorus (as phosphoric acid)	100 000 mg
Potassium (as potassium chloride)	2 090 mg
Sodium (as sodium chloride)	2 650 mg

Trace elements

Copper (3b401 - Copper(II) diacetate monohydrate)	400 mg
Manganese (3b501 - Manganous chloride, tetrahydrate)	1 000 mg
Zinc (3b601 - Zinc acetate, dihydrate)	1 000 mg
Iron (3b102 - Iron(III) chloride hexahydrate)	2 000 mg

Amino acids

Lysine (3c322 - L-lysine monohydrochloride technically pure)	6 000 mg
Methionine (3c301 - DL-methionine, technically pure)	10 000 mg

MADE IN FRANCE

ACTIV'

AD3E 100-20-20

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' AD3E 100/20/20 is a supplement in fat soluble vitamins A, D3 and E to enhance natural protective mechanism and improve physiological resistance against infections.

ACTIV' AD3E 100/20/20 stimulates reproductivity and normal growth, helps to overcome stress...

Their antioxidant actions, are recommended during demanding periods such as rapid growth, reproduction periods, under stress (infectious, thermal, breeding animals), immune strengthenind for young animals.

Benefits :

- Strengthens immune system ;
- Helps to reducing stress ;
- Improves bone mineralization ;
- Improves growth ;
- Improves nutrient absorption ;
- Maintains fertility ;
- Fulfill body requirement for essential vitamins.

Direction for use

For young animals (start-up, growth, weaning ...).

For adult animals (reproduction periods, food transitions ...).

Regularly, in case of particular risks :

- Poultry: Dilute 0.25 to 0.5 liter per 1000 liters of drinking water ;
- Cows: 5 to 10 mL per day and per animal ;
- Calves: 2 to 5 mL per day and per animal ;
- Ewes - Goats: 2 to 4 mL per day and per animal ;
- Lambs – Young Goats: 0.5 to 2 mL per day and per animal.

Over periods of 3 to 5 consecutive days.

Repeat as needed.

Specifications per liter

Vitamins

Vitamin A (3a672b – Retinyl palmitate)	100 000 000 UI
Vitamin D3 (3a671 - Cholecalciferol)	20 000 000 UI
Vitamin E (3a700 - All-rac-alpha-tocopheryl acetate)	20 000 UI

Other ingredients

Propylene glycol, glycerine.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Exported by MT Nutri

MADE IN FRANCE

ACTIV' OLIGO

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' OLIGO is a supplement in trace elements in chelate form for a better assimilation by the organism. Trace elements are essential for their multiple and varied roles in functions of organism : immunity, digestive and cellular metabolism, nervous balance, reproduction...

Chelates are organically-bound trace elements (in this product, the form of amino acid is glycinate). Glycinate is the product resulting from chelation of trace element with amino acid glycine.

Benefits :

- Higher bioavailability of trace elements ;
- Increases animal performance ;
- Better animal vitality and productivity ;
- Higher absorption rate by gut mucosa ;
- Higher efficiency from supplemented phytase.

Direction for use

- For young animals (start-up, growth, weaning ...) ;
- For adult animals (food transitions ...) ;
- Regularly, in case of particular risks.

Poultry : Dilute 0.5 to 1 liter per 1000 liters of drinking water ;

Cow : 50 ml per cow and per day ;

Calf : 5 to 10 ml per animal and per day ;

Ewes - Goats: 10 mL per day and per animal ;

Lambs – Young Goats: 1 to 2 mL per day and per animal.

Over periods of 3 to 5 consecutive days.

Repeat as needed.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per liter

Trace elements

Copper 8 500 mg

(3b413 – Copper (II) chelate of glycine hydrate (solid))

Zinc 12 500 mg

(3b607 - Zinc chelate of glycine, hydrate (solid))

Zinc (3b605 - Zinc sulphate, monohydrate) 12 500 mg

Manganese 12 500 mg

(3b506 - Manganese chelate of glycine, hydrate)

Manganese 12 500 mg

(3b503 - Manganous sulphate monohydrate)

Selenium (3b801 - Sodium selenite) 75 mg

Iodine (3b201 - Potassium iodide) 63 mg

Vitamins

Vitamin B12 (3a835 - Cyanocobalamin) 30 mg

Emulsifiers and stabilizing agents

Sorbitol (E 420) 100 000 mg

Other ingredients

Propylene glycol.

Packaging

A CTIV' BIOTIN ZINC

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

Liquid product that provides a high level of zinc, biotin and amino acids to prevent the integrity of skin and legs.

Benefits :

- Improves skin protection, quality appendages and plumage ;
- Improves immune response ;
- Stabilization of tissue and fat in animal products ;
- Protective effect on cells and stimulates cell replication.

Direction for use

Dilute 1 liter per 1000 liters of drinking water over periods of 3 to 5 consecutive days.
Repeat as needed.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.
Close the packaging well after use.
Keep out of the reach of children.

Specifications per liter

Trace elements

Zinc (3b605 - zinc sulphate, monohydrate) 12 000 mg

Vitamins

Biotin (3a880) 250 mg

Amino acids

Lysine (3c322 - L-lysine monohydrochloride technically pure) 3 000 mg

Threonine (3c410 - L-threonine) 2 000 mg

Tryptophan (3c440 - L-tryptophan) 500 mg

Other ingredients

Propylene glycol, glycerin.

MADE IN FRANCE

ACTIV' GUT

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' GUT is composed of a mixture of α -monoglyceride with anti-pathogenic activity.

Glycerides of short chain fatty acids are mainly active against Gram-negative bacteria (like *Escherichia coli* and *Salmonella*) and Gram-positive bacteria (such as *Clostridium perfringens* and enterococci).

The combination of glycerides from short- and medium chain fatty acids makes an ideal balance to target a broad range of pathogens.

Benefits :

- Modulates the immune response ;
- Optimizes the animal's intestinal environment ;
- Improves production yields.

Specifications

Glycerides of propionic acid, glycerides of butyric acid, glycerides of caprylic acid, glycerides of capric acid.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

Direction for use

Dilute 2 liters per 1000 liters of drinking water over periods of 2 to 3 consecutive days, depending on the health status of the farm.

Then continue the treatment for 3 additional days at 1 Liter per 1000 L of drinking water.

Repeat as needed.

ACTIV' BRONCHITIS

LIQUID

 WE << OFFER **YOU** THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV'BRONCHITIS is a mixture of aromatic substances which contributes to reduce losses associated with infectious bronchitis.

Benefits :

- Supports health of respiratory organs ;
- Helps maintain moisture balance in nose, throat and lungs ;
- Improves respiration by decreasing mucus accumulation ;
- Decreases inflammation of the respiratory tract ;
- Maintain healthy immune function ;
- Decrease in mortality rate.

Specifications per liter

Aromatic substances

Mixture of aromatic substances.

Other ingredients

Propylene glycol, glycerin.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Direction for use

Dilute 1 liter per 2000 liters of drinking water for 7 consecutive days, during critical times.

Packaging

1L drum (cardboard box of 12) / 5L drum (cardboard box of 4).

ACTIV' BIOTEC

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV'BIOTEC is a mixture of aromatic substances which contributes to reduce health problems in breeding (alternative to antibiotic growth promoters). These substances have been selected for their broad-spectrum of actions and for use as preventive measures to intestinal health problems caused by bacteria and coccidia

Benefits:

- Gut microbiota balance :
 - Prevent necrotic enteritis ;
 - Reduce the impact of E.Coli ;
 - Prevent intestinal health problems caused by Clostridium perfringens and coccidia ;
- Decrease in mortality rate ;
- Increase feed efficiency.

Specifications per liter

Aromatic substances

Mixture of aromatic substances.

Other ingredients

Propylene glycol, glycerin.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

ACTIV' ZEN

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

Stress affects the behavior and productivity of animals : decrease in consumption, aggressive behavior, decrease in productivity and immunity...

ACTIV'ZEN helps reduce the perception of stress and limit its negative effects on production.

Benefits :

- Increase feed and water intake ;
- Decrease in mortality rate ;
 - Maintenance of growth performance despite stressful situations ;
- Limit the negative impact of stress (nervousness) on laying performance ;
- Better batch homogeneity ;
- Helps with heat stress.

Direction for use

Dilute 1 liter per 2000 liters of drinking water for 7 consecutive days, during critical times.

ACTIV'ZEN acts as a preventative. To be used 7 days before identified stress.

For unidentified or sporadic stresses, use should be continuous.

The stresses identified can be the food transition, vaccination, the density of animals in breeding, handling or grouping, transport, climatic stress...

Specifications per liter

Aromatic substances

Mixture of aromatic substances.

Vitamins

Vitamin C (3a300 - Ascorbic acid)

4 000 mg

Other ingredients

Propylene glycol, magnesium sulphate, glycerin.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

2 Poultry Powder nutritional product

FEED MYCO PLUS

POWDER

WE << OFFER YOU THE >> BEST

PREMIX FOR ALL SPECIES

Description

FEED MYCO PLUS a mycotoxin binder.

FEED MYCO PLUS contains several means of mycotoxin management to increase the effectiveness of the premix, preserving the digestive functions of the animal, and limit the consequences of these toxins on the animal.

- Composes of selected yeast fractions, which have the ability to reduce food contamination by ochratoxin and Zearalenone, by adsorption. The selection makes it possible to have a much greater absorption capacity than most other origins thanks to a contact surface 2 to 3 times higher.

- Also composes of Bentonite and Clinoptinolite, which are smectite-type clays with a high absorption capacity intended to reduce mycotoxin contamination, particularly Aflatoxins B1.

FEED MYCO PLUS is a complete mycotoxin sensor which therefore acts on most toxins encountered in breeding

FEED MYCO PLUS also contains a prebiotic rich in mannan oligosaccharides (MOS 8%) and β -glucans (8%) which increases performance in breeding

- Reduces pathogenic pressure (capture of Salmonella and E Coli pathogens, adsorption of toxins) ;
- Improves digestive function (reinforcement of the intestinal mucosal barrier, maintenance of tightness of tight epithelial junctions and protection of villi) ;
- Regulates inflammatory mechanisms (amplification of the immune response).

Support

Selected yeast fractions

Specifications per kg

Binders

Bentonite (1m558i)	450 000 mg
Sepiolitic clays (1g563)	100 000 mg
Clinoptinolite (1g568)	50 000 mg

Direction for use

Stir in the feed at a rate of :

Hen : 2 kg/T of complete feed

Broiler growth and fattening : 2kg/T of complete feed

Cattle growth and fattening : 2kg/T of complete feed

Lambs fattening : 2 kg/T of complete feed

Dairy cow : 1 to 2 kg/T of complete feed

Sheep and goat dairy : 2 kg/T of complete feed

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

Bag of 20 Kg.

MADE IN FRANCE

ACTIV' VIT C

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' VIT C provides antioxidant action thanks to vitamin C and improves immune system activity. Vitamin C has a better conservation in powder than in liquid (because vitamin C can be oxidized in aqueous solution and in presence of alkalis).

Benefits :

- For heat stress cases caused by extreme high temperature ;
- For better immune system against various diseases;
- Improves feed intake and weight gain ;
- Improves egg production ;
- Helps in periods of high heat, or stress (antioxidant action) ;
- Prevents vitamin C deficiencies.

Specifications per kg

Vitamins

Vitamin C (3a300 - Ascorbic acid)

715 000 mg

Other ingredient

Dextrose.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.
Keep out of the reach of children.

Packaging

Bag of 700g.

Direction for use

Dilute 350 g per 1000 L of drinking water (1 bag per 2000 Liters).

ACTIV' K3 POWDER

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR POULTRY

Description

ACTIV' K3 is composed of vitamin K3, particularly suitable for prevention of hemorrhagic problems (bluntings, pecking ...). It plays an important role in clotting mechanism.

Benefits :

- Recommends for adjunctive therapy in gumboro disease and coccidiosis ;
- Allows a strengthening of the quality of eggs and shell.

Direction for use

Poultry: Dilute 1 sachet (400g) per 2 000 to 4 000 liters of drinking water.

Laying and breeding hens: Dilute 1 sachet (400g) per 2 000 liters of drinking water.

1 sachet of 400g contains 150 000 mg of vitamin K3.

Specifications per kg

Vitamin

Vitamin K3

(3a710 - Menadione sodium bisulphite)

375 000 mg

Other ingredients

Lactose, dextrose.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

ACTIV' E + SELENIUM

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' E + SELENIUM, through its antioxidant action, is recommended during demanding periods such as rapid growth, reproduction periods, stressful situations (infectious, thermal, animal breeding), or immune strengthening.

Benefits :

- Improves immunity and development of the liver ;
- Improves performance and production ;
- Improves laying in layers and breeder hens ;
- Prevents encephalomalacia in broiler chickens ;
- Prevents the formation of free radicals and of peroxides which are the cause of cell degeneration and destruction.

Direction for use

For young animals (start-up, growth, weaning ...) ;

For adult animals (reproduction periods, food transitions ...) ;

Regularly, in case of particular risks.

- Poultry: Dilute 0.5 to 1 liter per 1000 liters of drinking water ;

- Dairy cows: 40 mL per day and per animal ;

- Calves: 3 to 10 mL per day and per animal ;

- Ewes - Goats: 5 mL per day and per animal ;

ACTIV' START

POWDER

WE << OFFER YOU THE >> BEST

MINERAL FEED FOR CALVES

Description

Secures the start-up of young ruminants. Recommended for the prevention of infectious stress, during vaccination, convalescence (during antibiotic therapy). This product contains :

- Active yeast for proper digestive functioning ;
- Prebiotics (Mannan and beta glucans) that feed the existing flora resulting in an increase of beneficial flora ;
- Aromatic substances for digestive purposes ;
- Antioxidant substances (Vitamin E, Organic selenium) for immune strengthening.

Direction for use

In case of risk of digestive disorders, during and after these. As a mixture in the ration : 50 g per calf and per day.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Specifications per kg

Trace elements

Selenium 5 mg
(3b813 - Selenomethionine produced by *Saccharomyces cerevisiae* NCYC R646)

Vitamins

Vitamin E 4 000 mg

(3a700i - All-rac-alpha- tocopheryl acetate)

Vitamin C (3a300 - Ascorbic acid) 1 000 mg

FEED DIGEST RUMINANT

POWDER

WE << OFFER YOU THE >> BEST

MINERAL FEED FOR RUMINANTS

Description

FEED DIGEST RUMINANT, by its live yeasts supply, stimulates the metabolism of the rumen. Also, its aromatic substances promote immune reinforcement and contribute to better management during lactation.

The expected effects are:

- Stabilization of ruminal pH (decrease of acidosis);
- Increase in milk production ;
- Valuation of rations (less undigested particles in dung) ;
- Decrease in cellular rate ;
- On dairy ruminant and particularly on the Buffalo, increase in milk protein (for better cheese production) ;

FEED DIGEST RUMINANT is highly recommended in case of heat stress: During difficult conditions, the respiratory frequencies increase and the consumption of dry matter decreases.

The consequences are a decrease in ruminal pH and milk production.

With FEED DIGEST RUMINANT, under intense heat stress (THI index between 69 and 79) :

- Improved food intake and consumption index ;
- Increase in milk production.

Direction for use

Under heat stress.

In case of risk of digestive disorders, during and after these.

For the valuation of the diet feed.

- Dairy cows and buffaloes: 50 g per cow and per day
- Sheep and dairy goats: 10 g per animal and per day

Specifications per kg

Gut flora stabilisers

Active yeast *Saccharomyces cerevisiae* 100.10¹⁰UFC (4b1702)

Binders

Sepiolitic clays (1g563)

760 000 mg

Aromatic substances

Mixture of aromatic substances

Other ingredients

Sodium chloride, calcium carbonate.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

Bag of 25 Kg.

MADE IN FRANCE

ACTIV' HYDRAT CALF

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR CALVES

Description

Electrolyte solution to regulate osmotic exchanges and limit their loss in the event of digestive disorders and convalescence, during dehydration linked to transport or heat and during batching.

The buffering capacity (SID) of the reconstituted rehydrating solution is 80 mmol/L.

This product contains :

- Electrolyte
- Dextrose for its energy supply.
- Psyllium, a natural fiber (contained in the seeds of plantains), rich in mucilage. This fiber helps regulate intestinal transit in young animals (improvement of motility, increase in viscosity, prevention of intestinal irritations). Due to its swelling properties on contact with water, it creates a gelatinous appearance.

Specifications

Sodium	9,0 %
Chlorides	6,6 %
Potassium	4,5 %

Ingredients

Dextrose, sodium citrate, disodium phosphate, plantago seed, potassium chloride, sodium chloride, whey powder, monopotassium phosphate.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Direction for use

In the event of digestive disorders (diarrhea), during and after these.

Dilute one pod (50g) in 2 liters of lukewarm water.

Administer 1 to 2 liters of solution per meal and per animal.

Packaging

1 kg jar with pod.

Exported by MT Nutri

MADE IN FRANCE

ACTIV' VIT C

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR ALL SPECIES

Description

ACTIV' VIT C provides antioxidant action thanks to vitamin C and improves immune system activity. Vitamin C has a better conservation in powder than in liquid (because vitamin C can be oxidized in aqueous solution and in presence of alkalis).

Benefits :

- For heat stress cases caused by extreme high temperature ;
- For better immune system against various diseases;
- Improves feed intake and weight gain ;
- Improves egg production ;
- Helps in periods of high heat, or stress (antioxidant action) ;
- Prevents vitamin C deficiencies.

Direction for use

Dilute 350 g per 1000 L of drinking water (1 bag per 2000 Liters).

Specifications per kg

Vitamins

Vitamin C (3a300 - Ascorbic acid)

715 000 mg

Other ingredient

Dextrose.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.

Packaging

Bag of 700g.

ACTIV' BEE OLIGO

LIQUID

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR BEE

Description

ACTIV' BEE OLIGO is a dietary supplement for bee that gives the colony the balance it needs and provides trace elements for honeybees.

Makes the bees healthier and more powerful, provides increase in brood efficiency and protects bees against winter losses.

Direction for use

Mix 2 ml of solution with 1 Liter syrup.
Do not exceed 5 ml per hive.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.
Keep out of the reach of children.

Specifications per liter

Trace elements

Zinc (Chelate)	2 000 mg
Zinc (Sulphate)	2 000 mg
Manganese (Chelate)	1 500 mg
Manganese (Sulphahte)	1 500 mg
Copper (Chelate)	1 500 mg
Iodine	20 mg
Selenium	15 mg

Other ingredients

Dextrose, sorbitol, propylene glycol.

Packaging

1L drum (cardboard box of 12) / 500ml drum

Exported by MT Nutri

6 Bee
Powder nutritional product

ACTIV' BEE COMPLETE

POWDER

WE << OFFER YOU THE >> BEST

COMPLEMENTARY FEED FOR BEE

Description

ACTIV' BEE COMPLETE provides trace elements, vitamins, proteins and energy.

By strengthening the intestinal system of bees, resistance to diseases increases.

It favors a stronger entrance in winter, increases the reproduction of the main bee, healthy bees, honey production and increased royal jelly.

Declines in the bee mortality rate are observed.

Direction for use

Mix 2 g of powder with 1 Kg of bee feed or 1 Liter syrup.

Storage

Store between 5°C and 25°C in a dry area, away from light and moisture.

Close the packaging well after use.

Keep out of the reach of children.
